INJUSTICE.**

Uncle Pabai (he/him) and Uncle Paul's (he/him) ancestors have lived on islands of the Torres Strait, the northernmost part of Australia, for thousands of years. Now their whole way of life – which as Indigenous Peoples is deeply connected to land, sea and sky – is at risk because of climate change. If the islands become uninhabitable, they will be forced to break these connections and leave their homelands.

**Call on Australia to take urgent climate action.**
