

HONDURAS: DEMAND JUSTICE FOR JUAN LÓPEZ

No one should pay with their life for protecting the planet. Juan López was a loving father and husband. Since 2015, he tirelessly defended his local environment in northern Honduras from mining and energy projects which have threatened local rivers, forests and the Carlos Escaleras Mejía National Park. Juan and fellow activists founded the Tocoa Municipal Committee for the Defence of Common and Public Goods to peacefully challenge the legality of the projects. Because of their activism they've been harassed, threatened and criminalized by authorities. Many committee members have been arrested and imprisoned. Some have been killed. On 14 September 2024, a masked gunman shot Juan dead in his car as he was leaving church. The alleged shooter and two alleged accomplices have been charged with murder and are being held in pretrial detention. But those suspected of ordering Juan's murder have not been held accountable. Sign the petition calling for a prompt, independent and impartial investigation into the killing of Juan López. All those suspected of responsibility for the crime should be identified and brought to justice in fair trials.
